

# ACCUMADE

*The Proof's in the Marks*

## Neutralization & Flex Matching

**USGA Conforming**

*Why not buy  
your shafts already  
Frequency Matched  
and "Spined"?*

*Better Yet!*

*Why not provide your  
Customers with shafts that  
are Neutralized at the NBP  
and truly matched by flex  
characteristics within a set?*

*Irons/Woods Steel/Graphite*
